

Masters Course and Workshop: Clinical Counterstrain Applications for Today's Practice

Date: September 8-10, 2023

**Location: Midwestern University Arizona College of
Osteopathic Medicine (Glendale, AZ)**

Course Director: William Devine, DO

Register online at www.academyofosteopathy.org

Course Description

The workshop will provide “hands on” learning experience as to using Counterstrain Tenderpoints and other models for diagnosis and treatment. The art of finding and palpating the Tenderpoints and “fine tuning” strain-counterstrain positions will be explained. Clinical applications and cases will be included with typical diagnostic findings and treatment suggestions.

Some content may be a review for some, but for many will be an important supplement to pre and post graduate education for the active practicing clinician, resident, or program director.

New and original concepts provided will give registrant diagnosis and treatments you can take home and use.

Dr. Kate Worden will present for the first time “Counterstrain in the Cranial Field” from Sutherland and the Jones’ synthesis use of strain patterns.

Drs. Kuchera, Rennie, Klock, and Devine have updated and original concepts based on years of using Counterstrain and teaching.

Continuing Medical Education

20 credits of AOA Category 1-A CME anticipated

Course Location

Midwestern University, OMM Lab
